Introduction

In the following document we will proceed to detail the work of each member of team 6 in a schedule breakdown. This decomposition has been provided by the Toggle application. Once the total number of working hours of each member is obtained, each of them is counted. Today a software engineer whose experience based on D&T1 has been outstanding, as in the case of this team, would receive around 8-9€ per hour, excluding taxes and other expenses. For the most appropriate and reasonable calculation, it will be established that each member of the team receives € 8.50 per hour. Next, there will be a report of each member of the team, whose names are: Ángel Delgado Luna, Belén Garrido López, María de Gracia Piñero Pastor, Ezequiel Portillo Jurado and Alejandro Rodríguez Díaz.

Schedule breakdown by member

Ángel Delgado Luna

The member Ángel, has been working a sum of 31 hours 46 minutes, which is equivalent to a payment for his part of 270,20€.

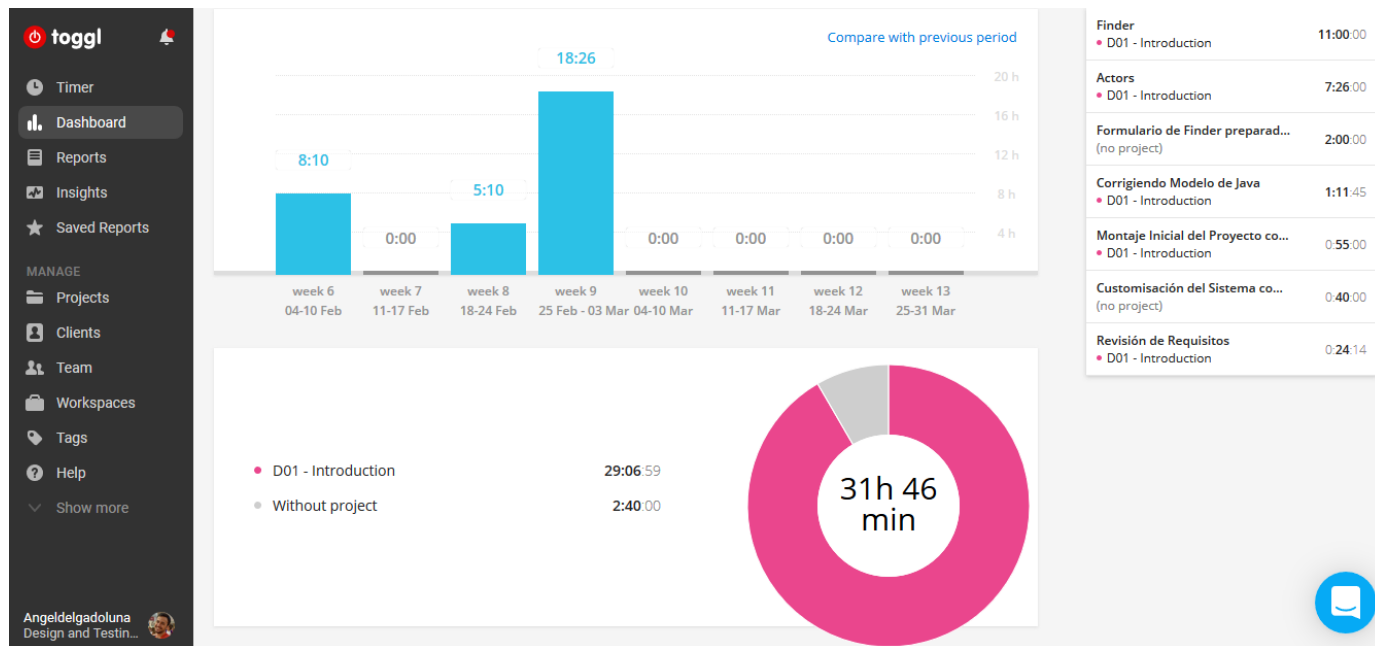

Figura 1. Screenshot of Ángel's dashboard

Cost estimate table

Ángel	<i>Hours employed</i>	<i>Minutes employed</i>	<i>Overall time</i>	<i>Entire cost</i>
Cost per hour: 8.50€	31			263.50€
